🧭 HOW BEGINNERS SHOULD USE THIS MAP

Phase 1 — Spring (Fast Wins)
Plant:

- Radishes
- Lettuce
- Spinach
- Carrots
- Beets

Harvest begins in **25–45 days** → confidence boost.

Phase 2 — Summer (Heavy Producers)
Replace with:

- Bush beans
- Zucchini

Why these:

- Very forgiving
- Grow fast
- Produce continuously
- No support needed
- Hard to kill

Phase 3 — Fall (Easy Finish)
Finish with:

- Spinach
- Lettuce
- Kale
- Arugula
- Turnips

Cold-tolerant and low maintenance.

🌿 WHY THESE CROPS WERE CHOSEN (BEGINNER LOGIC)

Crop	Why It’s Perfect for Beginners
Radish	Germinates in 3–5 days
Lettuce	Fast, cut-and-come-again
Spinach	Cold hardy, forgiving
Bush Beans	No staking, huge yields
Zucchini	Extremely productive
Carrots	Direct sow, simple
Beets	Dual harvest (root + greens)
Kale	Nearly indestructible
Arugula	Grows fast, tolerates cold
Turnips	Fast and reliable

Removed entirely:

- Tomatoes
- Peppers
- Cucumbers
- Melons
- Broccoli
- Cauliflower
- Anything that stresses beginners
